EDGEWATER
FEDERAL SOLUTIONS

Our People... Your Edge

Built on Tradition.
Advanced through Innovation.
Powered by our People.

About Edgewater

Edgewater Federal Solutions was founded in 2002 with the mission of being the best technology services company possible for our government clients, contracting partners, and employees. As a business with 20 years of excellence, we are experts in our field and committed to providing the highest quality, efficiency and responsive support to our partners and clientele.

Our Services

Combining our federal expertise with cutting-edge innovation, we're powered by great people that provide leading IT services. Our commitment to excellence delivers results that exceed the expectations of our customers and give government and commercial organizations an edge.

Enterprise IT

Our services are geared towards our customer's mission and future. Cloud managed and modernized, we use the industry's best IT service management and governance practices to maximize value for our clients.

Cybersecurity and Information Assurance

From Zero Trust assessments to implementation, security posture analysis to damage control during a security incident, our team provides future-oriented tools and tactics to protect the organizations we serve from cyber threats.

Professional Services

Our professional services arm allows us to support clients on multiple levels across the organization to tackle challenges inside and outside of IT. Our experienced team will help provide innovative business solutions that fit any operation and mission.

Digital Transformation and Innovation

Whether it's a complete organizational digital overhaul or a department-specific workflow challenge, our methodology helps our clients establish a roadmap for successful process improvement and business transformation results.

Program Management

We specialize in program and project management support for mission-critical initiatives that affect the trajectory of entire organizations. Our team builds partnerships between IT and business leadership, enabling everyone to drive forward toward the same goals — program execution and a successful outcome.

Data Science and Analytics

We partner with organizations that want to get insights from their data so they can access historical trends, create data visualization and plan core business operations for the future. We work with you to provide advanced data analysis with regular and ad-hoc reports, real-time dashboards, alerts and self-service analytics.

Agile Systems Engineering

With customer needs and enterprise solutions at the forefront, we leverage Continuous Delivery, DevSecOps, Emerging Technologies and Managed Services to provide agile project services in the areas of system architecture and engineering.

Why Edgewater

Commitment to Quality

Driven by our team, we invest in processes, standards and certifications to ensure excellence and quality delivery of our customers' missions.

Innovation

Our team works together to solve complex challenges every day. We stress best practices, best of breed technologies and new and emerging technologies that meet our customer-first approach.

Our Team

We prioritize and support our people, giving them the tools they need to succeed. We promote an industry-leading culture that works as a catalyst for robust creativity and superior quality.

Our Promise

Our commitment to achieving excellence is what drives us to deliver exceptional results to our customers' challenges. It's also what drives us to select the best employees and empower them with the top benefits and reliable support they deserve to do great work. It's what gives us an edge in the industry.
